#### **DESCRIPTION:**

Students are required to describe about the features of UiTM Libraries WebOPAC AND OPAC of one library of their own choice. Then, choose a topic, do a search for books/articles/ebooks/journals, and describe the steps that you have followed until you get a result. Attach the first page of the books/articles/e-books/journals (screenshot) from your result as the proof of your search in this assignment. The description must explain about basic search, advance search, additional search, limitation, basic elements of the WebOPAC, the ease of navigation, subject covered, etc.
